UniversitySwap — UI Style Guide

One-page extract from the current iOS SwiftUI app (AppTheme, ListingCard, primary buttons).

1. Colors

Primary brand colour is marketplace orange. Blue is used for verified badges only. Hex values below are for reference

Role	Usage
Primary / brand	CTAs, price, selected tab, Publish +
Text primary	Titles and main body
Verified blue	AUT Student / Staff chip
Error / logout	Validation errors, Log Out

Trade-type badges (on listing cards)

Trade type	Colour name	In code
Giveaway	Green	AppTheme.giveawayGreen
Sell	Orange	AppTheme.brandOrange
Swap	Orange	Same as Sell (current build)

*Swap and Sell share orange in the current implementation.

2. Typography

Font family: San Francisco (SF Pro) via SwiftUI .font(.system(...)). No custom font files bundled.

Style	Size / weight
Screen title	~22 pt bold
Card title	14 pt semibold (max 2 lines)
Price	18 pt bold, brand orange
Meta (campus · distance)	12 pt regular, tertiary grey
Primary button label	17 pt semibold, white

3. Components

Listing Card

White card · 14 pt continuous corner radius · light shadow. Layout (top → bottom):

1) Image (4:3) with trade-type badge (top-left capsule)

2) Title (up to 2 lines)

3) Price line — $N / “Free · Pickup only” / “Open to swap”

4) Campus · distance (pin icon)

5) Favourite heart + like count (bottom-right)

Button (primary)

Capsule (pill) or ~14 pt rounded rectangle · fill brand orange · white semibold label. Examples: Log In, Sign Up, Apply, Post / Next, tab-bar Publish (+). Secondary = orange text only. Destructive = red (Log Out).
